Nanny to Child Ratios

The number of Nannies on each event is dependent on the location, the number of children and their ages and the expectations of the children's involvement by the Wedding Couple.

The service which we provide ensures that Nannies are safely matched to the number of children and the ratios of Nanny to Child. This Ratio is a combination of legislative standards and our experience of providing high quality care.

" Children, especially small ones, are unable to always sit quietly during the wedding or reception.

Children have short attention spans and are very energetic, exuberant in nature. It's who they are. "

KEEPING THE LITTLE ONES HAPPY

At the Hotel

Babysitting Services provide families with the opportunity to have their children participate in the celebrations, whilst having the added benefit of having a Nanny accompany the children back to the hotel, so that they can enjoy the remainder of the Reception child-free.

If guests decide not to take their children to the Wedding or Reception, South Coast Nannies provides Babysitters and Overnight Nannies at their Accommodation Venue.

At the Venue

South Coast Nannies will liaise directly with the Event/Venue Manager or Wedding Coordinator in relation to the children's play area, to ensure it meets our standards and professional requirements. Our priority is always the safety and well being of children and our Wedding Nannies.

The Reception

Floaters are available at the Ceremony or Reception to assist families with providing an extra pair of hands to supervise the children.

Children's Activity Tables entertain the children during the speeches, and keep the children happy, busy, entertained, and quiet.

Wedding Activity Room

Our Wedding Nannies will arrive at the service venue and create a fun environment with books, craft, dvd's, games and age-appropriate experiences for the children. Depending on the number of children, mattresses and fresh linen can be provided for sleepy children.

The Wedding Nannies ensure that all the children receive their correct meals and drinks, supervise dinner, assist with toileting or nappy changes, bottles, and ensure that they are having a fabulous time.

Wedding Couple Family Package

A Wedding Day is often a very excitable day and overstimulating with children out of their regular routines.

The children are often unaware that the day is not focused around them, and that parents need to have their own time on the day. This is where our Nannies can provide assistance and support and make this experience memorable for them as well as creating individual child care options for the family, before and on the Wedding Day.

TESTIMONIALS

" I (and the mums) just want to say the biggest ever thank you to you and your wonderful ladies who took care of the children at the wedding. The support you gave the mums that day and night was far and above anything we could have imagined. "

" The Mums involved have not stopped talking about you all and the service you provided for them that enabled them to thoroughly enjoy the wedding knowing their "precious little ones" were being so beautifully cared for. Just wish you were closer to Sydney so we could engage your services here. Once again the biggest thank you to you all. "

" We had our Wedding and needed a Babysitter to look after our children during the day and overnight. We wanted our children to have a great day, just as much as we did. It was reassuring to know that we had a friendly and professional person watching over our children while we enjoyed the festivities and the children had so much fun. Thank you South Coast Nannies for arranging this for us It made our day even more special! "
