

SOUTH COAST NANNIES

DELIVERING PEACE OF MIND

Wedding Nannies & Babysitters

SHOALHAVEN - ILLAWARRA - SOUTHERN HIGHLANDS

A Wedding is such a special day to share with family and friends, and often this includes babies and young children.

South Coast Nannies work with families and children in hotels or accommodation venues and at weddings and events, catering for a variety of ages and different group sizes. Weddings are always long, very busy and exciting for everyone, with children being overstimulated and out of their regular routines.

Our Wedding Nannies can assist with the care of children at the Ceremony, entertaining the children during the Reception and provide supervision whilst your guests enjoy the celebrations.

Our Services

Activity Room
Activity Table
Activity Area

Floaters
Wedding Couple Family Package
Babysitting -Group Bookings

We have the knowledge and experience to tailor a package to suit the Wedding Couple, Guests and Families attending Weddings.

" Children, especially small ones, are unable to always sit quietly during the wedding or reception. Children have short attention spans and are very energetic and exuberant in nature. It's who they are. "

Keeping the Little Ones Happy

While the adults are sipping cocktails, giving toasts and catching up, we ensure that the children are engaged with fun activities that make them feel included in the festivities too.

Venues in the South Coast may have vast properties and beautiful gardens for children to explore and have fun outside and may have a room / area to accommodate our Activity Services.

Our services provide families with the opportunity to have 'adult time', have their children participate in the celebrations, or leave early so they can enjoy the remainder of the reception child-free. The children will be supervised and kept safe and entertained while engaging in play during the time they are in our care.

Activity Room

We provide a room filled with fun and exciting resources which include age and developmentally appropriate experiences for all the children to engage with (drawing and craft, toddler toys, books, board games, puzzles and quiet time activities). This is ideal for children attending Weddings.

Our Wedding Nannies supervise dinner, assist with toileting or nappy changes, bottles, and ensure that they are having a fabulous time. For sleepy children, they can be settled down for the remainder of the night.

Activity Area

This is perfect for children, especially during the canapes where they can release their energy after the formalities. Parents can socialise while the children enjoy our selection of age-appropriate outdoor games and activities. Wedding Nannies will supervise and ensure the children do not wander off, as they tend to get into mischief when their parents are distracted.

Delivering Peace of Mind

Activity Table

Our Wedding Nannies entertain the children with activities during the reception and keep the children entertained, happy, quiet and occupied, especially during the speeches. They ensure that all the children receive their correct meals, drinks and provide supervision during the reception.

Floater

This is not a sole charge position, rather an extra pair of hands to keep an eye on the child'ren and assist families with the care of their children. Floaters are provided during the ceremony, canapes and at the reception; when the adult meals arrive or when it's time for a dance.

Babysitting

Our child care options are designed to suit the individual needs of families whether caring for the children for part of the day, all day, evening or overnight. Your child'ren will be cared for by experienced, professional Babysitters who value the importance of the child'ren's safety, happiness and well-being. Our services provide families with the opportunity to have adult time, have their child'ren participate in the celebrations, or leave early so they can enjoy the remainder of the reception child free.

Family Package for Wedding Couples

More and more families are the Wedding Couple on the day. Children are often unaware that the day is not focused around them, and that parents need to have 'their time' on the day. This is where our Wedding Nannies can provide families with assistance and support based on their individual family needs.

Every Wedding is Unique

If you would like children to attend your Wedding but have concerns about how you will keep them happy, South Coast Nannies have reputable and professional expertise in wedding services to provide support for the wedding couple and their guests.

We provide the wedding couple with the 'Peace of Mind' to enjoy their day, without the potential for disruption which children can create when they are tired or restless.

Our Nannies

Formal Child Care / Nursing / Teaching / Aged Care Qualifications
Over 2 years' Professional Experience
Working with Children Checked
Current First Aid Certificate
Personally Interviewed and Reference Checked
Mature, Professional, Experienced and Fun !

Our Nannies have undertaken an extensive recruitment process to ensure children are always in the safest, most professional hands possible. Our Professional Team of qualified and experienced Wedding Nannies ensure the children are happy and having just as good a time as the adults!

Nanny to Child Ratios

The number of Nannies on each event is dependent on the location, the number of children and their ages and the expectations of the children's involvement by the Wedding Couple.

The service which we provide ensures that Nannies are safely matched to the number of children and the ratios of Nanny to Child. This Ratio is a combination of legislative standards and our experience of providing high quality care.

Personalised Estimates for your Wedding

Our Services suit the wedding couple's expectations of the children's involvement in their special day and the families' individual needs. Once we gather specific details of the services required, a 'Personalised Estimate' will be provided to cater for all your child care needs.

Visit our website to learn more on how South Coast Nannies takes the child care equation out of weddings.
